## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

a display of an icon comprising a selected stripe of the light and dark stripes changes from light to dark and remains dark in a region bordering on at least a part of a dark segment of a neighbouring stripe, and beyond the dark segment the selected stripe remains dark or changes back to light to create a shadow adjacent to an edge of the icon and a further selected stripe of the light and dark stripes changes from dark to light and remains light in a region bordering on at least a part of a light segment in the neighbouring stripe or in a further neighbouring stripe, and beyond the light segment the selected stripe remains light or changes back to dark to create a highlight adjacent to the edge or another edge of the icon so that altogether the light and dark stripes with shadows and highlights provide the icon with a three-dimensional appearance as recited in claims 1, 5 and 9.

Although the main reference Smith et al. teaches an icon similar to applicant's invention, it does not teach the shadowing effect created by the steps of alternating light and dark stripes as described above. Using the method of creating the icon as taught by Smith et al., Microsoft's Excel demonstrates such a shadow effect being duplicated;

however, there is no hint of desirability or motivation expressed by Smith et al. that would make obvious to someone in the art to modify the teachings of Smith et al. in order to create the shadows without hindsight gleaning from applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Smith et al. (US 6,448,984) teach displaying layered information using lenticular-like interfaces.

### ***Inquires***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lê Nguyen whose telephone number is **(571) 272-4068**. The examiner can normally be reached on Monday - Friday from 7:00 am to 3:30 pm (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid, can be reached on (571) 272-4063.
